Transiting Chiron in trine with natal Pluto

Sep 22, 2020 to Mar 4, 2021, exact Nov 10, 2020 R; exact Jan 19, 2021

The planetary energies flow smoothly; the connection is easy and beneficial.

You may be in for a rough time, as structures of your life that had previously supported you no longer serve their earlier purpose, and transform themselves in your life. There is always a certain amount of pain associated with changes of this magnitude, although great joy is possible as well if you "go with the flow" at this time, as difficult as that may be, and just let it happen. With this transit, you may experience intimations of other worlds beyond this present one. Sexual experience may provide the gateway into the hidden world of the dark places in the human psyche, yours or another person's. Old wounds that can be inhibiting and crippling until explored and come to terms with may begin to open themselves up to you. This can only be for good effect, as getting in touch with your shadow side will let these forces breathe and have their communion with the other parts of yourself, rather than remaining in the dark to fester. When you have integrated these dark ambassadors from the underworld of your own psyche, they can become powerful forces for healing as your outlook changes and you become better able to relate to yourself, and others around you as well.

The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.

Your communication with others is undergoing quite a shake-up at this time. You may experience flashes of insight, or moments of great excitement as new ideas break through to your conscious awareness. Relations with friends or associates may alter due to new patterns of communication with them. This can be very unsettling to your peace of mind. This influence is typically abrupt and full of rapidly developing insights. Your thoughts may become so scattered during the course of this transit that you miss out on completely exploring one thought before a new idea comes along. You may find it valuable to take the best of these new insights and store them away somehow for future reflection, at a later period of time.

Your decision-making process will also come slowly, even painfully, and may tend to be negative or full of doubts about your ability to succeed. But you must try not to be critical or disparaging in your thinking, just be sure of yourself before you go ahead. It is also important that you take personal time for yourself in order to feed your own process, independent from the opinions of others around you, who may have their own perspective that isn't a perfect match for yours.
